

Seth Williams

(650) 880-0410 | sethw@berkeley.edu | sethw.dev | github.com/mr-mph | linkedin.com/in/srwillx | Sunnyvale, CA

EDUCATION

University of California, Berkeley

B.S. Electrical Engineering & Computer Sciences

Berkeley, CA

Expected Graduation: May 2030

ROBOTICS

Berkeley Robotics Hackathon

Open Hardware Track Winner (\$1,000)

Berkeley, CA

Aug. 2026

- Built a voice-directed VLM pick-and-place system on an SO-101 arm for generalized object sorting
- Homographically projected a grid overlay so the model reasons in workspace coordinates

FRC Team 10221: #1 Sea Bass

Software, CAD, & Electrical

South San Francisco, CA

Feb. – June 2026

- Wrote WPILib swerve and scoring control, including shoot-on-the-move with heading and launch-angle lock
- Designed hopper and bumpers in Onshape; fabricated and assembled polycarbonate parts on the robot
- Diagnosed and repaired a CAN bus failure under mid-competition time pressure

FTC Team 12516: ONWARD

Captain & Software

San Jose, CA

Sep. 2022 – Feb. 2026

- Rebuilt the team in 2024 after nearly all members graduated; recruited and trained 8 new members
- Tuned dead-wheel localization and spline trajectories with PID; #1 autonomous average at a 2025 league meet
- 2× League Finalists, Think Award, and 2nd Place Inspire Award

PROJECTS

Berkeley Intro Constellation | *Python, D3.js, HTML*

Aug. 2026

- Built an interactive graph of Berkeley students linked by shared interests from Discord intros
- Linked as a resource in the official UC Berkeley Discord; 2K+ visits in the first week

EECStime | *TypeScript, React, GraphQL, MongoDB, Docker*

Jul. 2026

- Extended Berkeleytime with EECS requirement filtering, professor ratings, and reserved-seat tracking
- 1.8K+ visits from Berkeley students in the first week of release

CYBERSECURITY

US Cyber Team

Team Member

Remote

Sep. 2025 – Present

- Selected as 1 of 40 from 2,000+ contestants; ranked 9th/2,100 individually in the 2025 US Cyber Open

0xf1sh CTF Team

Captain & Competitor

Remote

Apr. 2024 – Mar. 2026

- Founded a nationally ranked CTF team (peaked #10/6,458 US); 1st of 446 HS and 3rd/4,214 overall in Fall 2025 NCL

WORK EXPERIENCE

Code Ninjas

Code Sensei

Cupertino, CA

June 2024 – Jan. 2026

- Taught JavaScript and block-based programming to 86+ students ages 8–14; led week-long STEM camps

TECHNICAL SKILLS

Robotics: Swerve Drive, Localization, Trajectory Planning, Kinematics, CAD, Fabrication

Languages: Python, Java (WPILib, FTC SDK), C, TypeScript/JavaScript, HTML/CSS

Tools: Git, Linux, Docker, Onshape, KiCad
